XTRACHÈNE

OAK  
IS IN OUR DNA

## FAST INTEGRATION, CONSISTENT BALANCE

Derived from the 22.90 stick, the **Stickettes®** offer a premium oak alternative designed for faster integration, with a recommended use of 2 to 3 months maximum.

Les **Stickettes®** are made from French or American oak, naturally seasoned in our wood yards for 24 to 36 months.

- Our traditional wood-fire toasting process is inspired by the bousinage method used in cooperage. Thanks to our exclusive toaster, we achieve unmatched complexity and consistency.
- **XTRACHÈNE** also masters convection toasting. This process ensures deep, core-toasting of the wood, delivering both homogeneity and reproducibility. Its aim: to fully reveal the wood's organoleptic potential.

### RECOMMENDATIONS

**WHITE, ROSÉ AND RED WINES.**

**ON THE MUSTS IN AF.**

**IN FOR SHORT AGEING PERIOD FROM THE MLF -  
UP TO 2 TO 3 MONTHS**

**RECOMMENDED DOSAGE OF 0.8 TO 2 STICK(S) PER HL**

# STICKETTES®
